# About us

Innovation does not come about merely by accident, it is the result of years of dedication and a focused approach all devoted to fostering an environment where fresh ideas and inspiration can flourish. We take inspiration from surroundings. We inspire and we create. Seeing something old with fresh eyes and all of a sudden, something connects in your head. we feel like every time we approach it, we have a different mindset and perspective or things reveal their different character to us. New technologies are now helping us to recreate complex structures found in the nature.

## Technical Specifications

| Properties                                    | Specified Values As Per IS 2046-1995      | Garv Confirms |
|-----------------------------------------------|-------------------------------------------|---------------|
| Product                                       | High Pressure Decorative Laminated Sheets | ✓             |
| Size                                          | 2440mm x 1220mm (8 x 4 ft.)               | ✓             |
| Thickness                                     | 1mm(± 10%)                                | ✓             |
| Resistance to surface wear                    | 350 (Revolution)                          | ✓             |
| Resistance to immersion in boiling Water      |                                           |               |
| -Mass Increase (%)                            | 10.0 Max.                                 | ✓             |
| -Thickness Increase (%)                       | 11.8 Max.                                 | ✓             |
| Resistance to dry heat 180° C                 | Not worse Than 4                          | ✓             |
| Dimensional stability at deviated temperature |                                           |               |
| -Longitudinal (%)                             | 0.5 Max.                                  | ✓             |
| -Transverse (%)                               | 0.9 Max.                                  | ✓             |
| Dimensional stability at 20° C                |                                           |               |
| -Longitudinal (%)                             | 0.375 Max.                                | ✓             |
| -Transverse (%)                               | 0.60 Max.                                 | ✓             |
| Resistance to impact by small diameter ball   | 20N Min.                                  | ✓             |
| Resistance to Cracking                        | Not wore than 4                           | ✓             |
| Resistance to scratching                      | 2N Min.                                   | ✓             |
| Resistance to Staining                        | Not wore than 5                           | ✓             |
| Resistance to colour change (wool standards)  |                                           |               |
| -In Xenon arc light                           | Not worse than 6                          | ✓             |
| - In enclosed Carbon arc light                | Not worse than 5                          | ✓             |
| Resistance to cigarette burns                 | Not worse than 3                          | ✓             |
| Resistance to steam                           | Not worse than 4                          | ✓             |
| Appearance                                    | Should be free from foreign particles     | ✓             |

Product : High Pressure Decorative Laminated Sheets

Size : 2440mm x 1220mm (8 x 4 ft.)

Thickness : 1mm (other thickness available on request)

Quality Standard : Imported Design base paper are used  
 Use of best quality kraft paper.  
 Use of 100% melamine resin and 100% phenolic resin.  
 Use best chemicals and raw material for better flexibility & durability.

Limited Warranty : Collection warrants that its products are reasonably free from manufacturing defects. The products when properly used will Comply, with normal deviations, to related manufacturing specification. It excludes damage resulting from accidents, abuse or lake of Care, improper used and / or any alternation. It is recommended that the product must be inspected prior to installation and our liability Will be limited to the extent of the cost of the product only. Insignia Collection are used for various applications, without possibility of Control over the manufacturing of the finished product. The company does not assume obligations or liabilities arising from the Furnishing, sale, installation or repair, use or subsequent sale of any products, to any person or entity.

Care & Maintenance : Cleaning should be carried out with a soft moist cloth and warm solution. Do not use Detergents containing abrasive particles or excess soda.

Note : Collection provides only replacement of the product if any manufacturing fault occurs. No replacement guarantee will be given if any application or handling mistake is done by the carpenter. Also company is not liable for fevicol and plywood replacement if any problem occurs in pasting laminates.
