Elevate Your Space With The Essence

Navkar®
LAMINATES

Techlam, a technology-induced log of laminates is a distinctive platform providing a vast collection of laminates belonging to different categories. It has classic pieces having timeless finesse. It also has next generation pieces having a contemporary feel.

This catalog addresses nature better than all as it has some of the gorgeous pieces that imitate the beauty of wood to the fullest. Having them around can make you feel one with wilderness and poise altogether. Apart from that, there are certain pieces having the look and feel of the real fabric. Getting them on board is an assertion of inviting prime elegance into space. Not to miss out on one of the most loved finishes of the current time, matt, Techlam also has an inclusion of striking matt finish laminates. The soft and subtle finish of matt is accompanied by pallid hues that narrate the tale of sobriety. The collection has also covered elements of glamour. All in all, it is a go-to almanac of surface décor elements having best of both worlds.

MALHCET - PRL

PRECISION ENGINEERING POWERFUL FEATURES

The features are arranged in a 4x3 grid:

- EASY TO CLEAN:** Icon of a hand cleaning a surface.
- HEAT RESISTANCE:** Icon of a flame.
- ANTI BACTERIAL:** Icon of a shield with a cross.
- WATER RESISTANCE:** Icon of a water droplet.
- EXTREMELY SAFE:** Image of a person wearing yellow gloves cleaning a white surface.
- SOFT TOUCH:** Image of hands touching a surface.
- SCRATCH RESISTANCE:** Image of a knife scratching a surface.
- LOW LIGHT REFLECTION:** Image of a hand pointing at a digital screen with a shield icon.
- HEAT RESISTANCE:** Image of a thermometer.
- ANTI BACTERIAL:** Image of a microscope.
- WATER RESISTANCE:** Image of water droplets.
- EXTREMELY SAFE:** Image of a person in a white lab coat and mask.
- SOFT TOUCH:** Image of a hand touching a surface.
- SCRATCH RESISTANCE:** Image of a hammer hitting a surface.
- LOW LIGHT REFLECTION:** Image of a hand pointing at a digital screen with a shield icon.

PROPERTIES	Specified Values as per IS:2046-1995	OUR CONFIRMS
Resistance to Surface wear	350 (Revolutions)	✓
Resistance to immersion in boiling water		✓
-Mass increase (%)	10.0% (Maximum)	✓
-Thickness increase (%)	11.8% (Maximum)	✓
Resistance to dry heat 180°C	Not worse than 4	✓
Dimensional Stability at deviated temperature		
-Longitudinal (%)	0.5% (Maximum)	✓
-Transverse (%)	0.9% (Maximum)	✓
Dimensional Stability at 20°C		
-Longitudinal (%)	0.375% (Maximum)	✓
-Transverse (%)	0.600% (Maximum)	✓
Resistance to impact by small diameter ball	20 N (Minimum)	✓
Resistance to cracking	Not worse than 4	
Resistance to scratching	2N (Minimum)	✓
Resistance to staining	Not worse than 5	✓
Resistance to color change (Wool standard)		
-In xenon arc light	Not worse than 6	✓
-In enclosed carbon arc light	Not worse than 5	✓
Resistance to cigarette burns	Not worse than 3	✓
Resistance to steam	Not worse than 4	✓
Appearance	Should be free From foreign particals	✓

GENERAL INFORMATION

- Product** : High Pressure Decorative Laminated Sheets
- Size** : 2440mm x 1220mm (8x4 Ft.)
- Thickness** : 1mm (+/- 10%) (Other Thickness Available on Request)
- Limited Warranty** : Techlam warrants that its products are reasonably free from manufacturing defects. The products when properly used, will comply, with normal deviations, to related Manufacturing Specification. It excludes damage resulting from accidents, Abuse or lake of care, improper use and / or any alteration. It is Recommended that the product must be inspected prior to installation and our liability will be limited to the extent of the cost of the product only. Layered Laminates are used for various applications, without possibility of control over the manufacturing of the finished product. The company does not assume obligations or liabilities arising from the Furnishing, Sale, Installation or Repair, use or subsequent sale of any product, to any person or entity.
- Care & Maintenance** : Cleaning should be carried out with a soft moist cloth and warm solution. Do not use detergents containing abrasive particles or excess soda.
- Note** :
 - Laminates are recommended for the indoor use only. Not to be exposed to direct sunlight.
 - The sample shown here only indicative of the color, patterns, finishes and not actual thickness.
 - It is advisable to view full laminate sheets for actual patterns before purchase.
 - Special thickness and finishes can be made available on request.

DIRECTION TO USE:

- Before using the laminate, Ensure that the surface of plywood and laminate is clean, Dry, Leaved and free of oils, Excess moisture or other contaminants, Such as Dust, Synthetic particles etc.
- Always stir the adhesive before use. Sufficient adhesive must be applied on either or both the surfaces to be bonded. Do not add water to the adhesive as it makes the bond weak.
- Once the adhesive applied if tacky in nature (Usually Requires 5-10 Minutes, depending on the atmospheric conditions), The laminate should be placed on the surface, accurately aligned.
- Apply sufficient bonding pressure to ensure intimate contact necessary for and adequate bond over the entire area using as much pressure as possible without damaging the assembly. Pinch (Rotary press) and heavy weighted rollers are ideal. Hand rolling should be done from the centre to the edges to ensure the removal of all air bubbles. Roll the edges twice.
- For satisfactory bonding, keep the area under pressure for 12-18 hours (Depending on atmospheric conditions). In rainy season or when humidity is too high, moisture may condense on the surface during drying (known as "Blushing") & will prevent an acceptable bond. Hot spray or forced air drying may be used to help prevent this condition.
- We recommend the maximum sheet size used for vertical field application be limited to 610x2440mm (2x8 Feet). If larger panels are required, fabricate them in the shop.
- When pasting laminate vertically, maintain uniform pressure on all sides until adhesive is dried. To avoid stress cracking, avoid making cut-outs having sharp & rough edges.
- Maintain a gap of 2mm between two laminated while pasting side-by-side.

No claim will be entertained For cracking arising from Groove or L- shape cutting

No claim will be Entertained For air bubbles

Keep away From direct Sunlight

Engineered For interior Use only

Designer Friendly Easy to use
